

**55-летию  
полёта  
Ю.А. Гагарина  
в космос -  
посвящается**

Директору Саратовского индустриального  
техникума Министерства  
трудоустройства резервов

От ученика ремесленного училища №10  
группы №21

Татарина Юрие Алексеевича,  
родившегося в 1934 году Смоленской области,  
Тракторском районе, Кудринском %,  
деревне Кудрино. Учен ВЛКСМ с 1949 года

Заевление.

Прошу Вас зачислить меня учеником  
вверенного Вам техникума, так как  
я желаю повысить свои знания в  
области швейного производства и  
принести как можно большую пользу  
своей Родине.

Все требования, предъявленные ко мне,  
обязуюсь выполнять честно и беспрекословно.

6/VI-51 ученик РУ-10 Татарин

**'So Close, Yet So Far,' Sighs Cape U.S. Had Hoped For Own Launch**

CAPE CANAVERAL, Fla. (AP) — The Redstone rocket which the United States had hoped would boost the first man into space stands on a launching pad here. The Soviet Union beat its firing date by at least two weeks.

"So close, yet so far," commented a technician who is helping ground the Redstone to send one of America's astronauts on a short orbital flight, hopefully late this month or early in May.

By BOB WARD

"If we hadn't had those losses last fall and on the shore and Little Joe that this year, we might have made it," the technician said.

"But you have to give the Russian scientists credit. They've accomplished a remarkable breakthrough."

Dr. Hugh Devlin, deputy director of the National Aeronautics and Space Administration, said

**Soviet Officer Orbits Globe In 5-Ton Ship Maximum Height Reached Reported As 188 Miles**

MOSCOW (AP)—A Soviet astronaut has orbited the globe for more than an hour and returned safely to receive the plaudits of scientists and political leaders alike. Soviet announcement of the feat brought praise from President Kennedy and U.S. space experts left behind in the contest to put the first man into successful space flight.

By the Soviet account, Maj. Yuri Alekseyevich Gagarin, rode a five-ton spaceship once around the earth in an orbit taking an hour and 35 minutes. He was in the air a total of an hour and 48 minutes.

The whole sequence of events and the announcements relating to it raised a number of questions. The Soviet announcement said the flight took place today between 9:07 and 10:50 a.m., but some persons in Moscow's Western section were skeptical that the feat actually occurred.
